5.1 ENGLISH FOR EDUCATION

Our summer school operates during the months of June, July and August. The main focus of this programme is for students to improve their English through fun activities. As well as General English, learners have opportunities to develop English through other disciplines like Art, Drama, Science, Maths and Geography. These are linked together by weekly projects such as All About Me and the Discover London academic excursion to museums, galleries and famous historical sites. An afternoon of sport is also included where students practise hand-eye co-ordination and undertake aerobic exercise, such as rounders, sports and outdoor games. Minimum stay is 2 weeks. 23 hour programme (including academic excursion and English through sports). All classes are taught by specialist teachers with experience of working with 8-9 year old children.

5.2 PARENT & CHILD

The course gives an opportunity for both Parents and Children to study at the same time in central London. Parents of children aged 8-9 can study in either Soho or our special summer school at Baker Street, which is less than 10 minutes walk from this school.
